

špecialista pre vaše laboratórium,
vám prináša:

Lonza

- ponúka široké spektrum certifikovaných a testovaných produktov pre bunkové kultúry značky Cambrex BioWhittaker™. Všetko potrebné pre presné, reprodukovateľné a konzistentné výsledky vo výskume a diagnostike.

• klasické médiá

- Alpha MEM
- Basal Medium Eagle with Earle's BSS
- DMEM high Glucose, with L-Glutamine
- DMEM high Glucose, without L-Glutamine
- DMEM low Glucose, without L-Glutamine
- DMEM:F12 1:1, with L-Glutamine
- GMEM, Glasgow's MEM with L-glutamine
- Ham's F-10, with L-Glutamine
- Ham's F-12, with L-Glutamine
- IMDM with HEPES and L-Glutamine
- IMDM with HEPES and without L-Glutamine
- L-15 (Leibovitz)(2X), without L-Glutamine or Phenol Red or L-15 (Leibovitz), without L-Glutamine
- McCoy's 5A Modified Medium
- Medium 199
- MEM Eagle, without L-Glutamine or Phenol Red (2X)
- MEM Eagle-Earle's BSS, with L-glutamine
- MEM Eagle-Earle's BSS, without L-Glutamine
- MEM Eagle-Hanks BSS, without L-Glutamine
- NCTC-109, with L-Glutamine
- RPMI 1640 with HEPES, L-Glutamine and/or Penicillin-Streptomycin
- RPMI 1640, with L-Glutamine
- RPMI 1640, without L-Glutamine

• modifikované médiá

- Grace's Complete Insect Medium
- Grace's Insect Medium, without FBS
- Grace's Insect Medium, without Lactalbumin, Yeastolate, Gentamicin, or FBS
- Schneider's Insect Medium
- TC-100 Insect Medium
- Waymouth's MD 752/1 Medium with L-glutamine
- William's Medium E, without L-glutamine

• suplementy do médií

- Cytoprotective Medium (Freezing Medium)

• médiá pre špecializované použitie

- Renal Media
- ProNS0™ and Hybridoma Media
- CHO Media
- Hematopoietic Media
- Insect Media
- Karyotyping Media
- Products for In-vitro Fertilization
- ProFreeze™ NAO Freezing Medium (2X)
- ProPer™ 1 PER.C6® Medium

• reagentie pre bunkové kultúry

- Antibiotics
- Earle's Balanced Salt Solution
- Hank's Balanced Salt Solution

- Buffered Salines
- Phosphate Buffered Salines
- Buffers
- Amino Acids
- Misc. Reagents
- Trypsin

• séra rôzneho pôvodu (humánne aj animálne)

- Bovine Calf Serum, US Origin
- Donor Horse Serum, US Origin
- Fetal Bovine Serum, EU Approved
- Human Serum
- Human Serum, AB
- Human Serum, Male, AB
- Newborn Bovine Calf Serum, US Origin
- Serum Supreme

• špecializované bunkové systémy

- Rat Cardiac Myocytes
- Airway Cell Systems
- Bladder Cell Systems
- Endothelial Cell Systems
- Fibroblast Cell Systems
- New! Keratinocyte Cell Systems
- Mammary Epithelial Cell Systems
- Melanocyte Cell System
- Smooth Muscle Cell Systems
- Skeletal Muscle Cell Systems
- Neural Cell Systems
- Prostate Cell Systems
- Renal Cell Systems
- Skeletal Cell Systems
- Hepatocyte Cell Systems
- Cell Culture Reagents and Growth Factors

• reagentie pre analýzu buniek

- klasické aj fluorescenčné farbivá používané pri analýze experimentov na bunkových kultúrach

- LysoTracker® Red Lysosomal Probe
- Live/Dead® Viability/Cytotoxicity Assay Kit
- SYTO® Green 11 Nucleic Acid Stain
- SYTOX® Green Nucleic Acid Stain
- Vybrant® Dil Cell-Labeling Solution
- Annexin V, Alexa Fluor® 488
- Phalloidin, Alexa Fluor® 488 Conjugate
- Cell Tracker™ Green Fluorescent Probe
- Cell Tracker™ Orange Fluorescent Probe
- Mitotracker® Red CMXRos Mitochondrial Probe
- DAPI Nucleic Acid Stain
- Hoechst 33342
